E X P E R I E N C E

Salt River Project — Tempe, AZ

Software QA Tester (Android Mobile App Rewrite Project) (Feb 2021 – Oct 2021)

- Executed detailed test cases, identified software bugs, and worked with developers on fixes.
- Streamlined defect reporting and documentation, ensuring reproducibility and alignment with quality standards.
- Enhanced user accessibility by collaborating with cross-functional teams to test app features.

Standard Billing Analyst (Oct 2021 – Oct 2023)

- Performed critical billing validations and discrepancy analyses using Excel.
- Conducted QA on internal reporting tools and presented findings to stakeholders.
- Maintained a 97%+ quality score and received performance recognition consistently.

Customer Service Representative (Mar 2019 – Oct 2021)

- Handled over 12,000 customer call with 100% first-call resolution and a 99.7% satisfaction score.
- Recognized for delivering high-efficiency service and maintaining top-tier KPIs.

P R O J E C T S

PumpPal – Find the Cheapest Gas Near You

Lightweight, browser-based web app using geolocation and mock gas pricing. Built with HTML, CSS, JavaScript.

- Features: geolocation, light/dark, real-time price filtering, error handling, fuel-type drop-down
- Deployed using GitHub Pages; structured for future API integration
- Focused on code modularity and responsive UI
