Gilbert, AZ

Dear Hiring Manager,

As a junior Computer Science student at Arizona State University, I am eager to apply my academic knowledge and technical skills in a professional setting. I believe that the hands-on experience and industry exposure will allow me to contribute my skills effectively.

During my coursework at ASU, I have developed a strong foundation in computer science, including areas such as data structures, algorithms, and object-oriented programming. I am proficient in languages like Java and C++, and I have completed several projects. My experience collaborating with peers in team settings has enhanced my problem-solving abilities and communication skills, which I believe are essential for thriving in a dynamic work environment.

In addition to my technical expertise, I am highly motivated to contribute to your organization and learn from your talented team. I welcome the opportunity to discuss how my skills and academic background align with the needs of your organization. Thank you for considering my application. I look forward to the possibility of contributing to your team.

Sincerely,
Barry Ngon
